Operating Systems	Windows, macOS, Android OS, iOS(iPhone/iPad)
Version Control & Tools	Git, GitHub, VS Code, Postman, Android Studio, Xcode

WORK EXPERIENCE

Junior Software Engineer — July 2024 - Present
In Time Tec — *Jaipur, Rajasthan*

- Developing and maintaining cross-platform mobile applications using React Native.
- Collaborated with the UI/UX team to design responsive and user-friendly interfaces.
- Integrated backend APIs to enable real-time data synchronization and improve user experience.
- Debugging and testing applications to ensure compatibility across devices and platforms.
- Successfully launched 2 mobile applications on both Google Play Store and Apple App Store.

Software Engineer Trainee — Jan 2024- July 2024
In Time Tec — *Jaipur, Rajasthan*

- Completed a rewarding internship in period of 6 months.
- Received advance training in JavaScript and React Native Development.
- Worked on various training projects like e-commerce app, exam quiz app to deepen my skills.
- Gained valuable professional exposure to industry standards and learned to collaborate effectively within teams.

PROJECTS

Roll On Dispatch App
The Roll on Dispatch mobile app is a React Native solution for drivers in the logistics industry, enabling seamless communication with dispatch teams. It allows drivers to manage shipments, accept or decline loads, share location data via geofencing, and upload documents like Bills of Lading. The app supports profile and document management, real-time notifications for job updates, and time-off requests. With its user-friendly interface, it streamlines operations, ensuring drivers can efficiently handle tasks while staying connected to dispatchers and administrators.

Portfolio Website
Developed a responsive and visually appealing portfolio website to showcase technical skills, projects, and professional achievements. Highlights include detailed project case studies, a skills overview, and an integrated contact form. The website is optimized for performance and accessibility, demonstrating expertise in front-end development and proficiency with technologies like JavaScript, React, and modern web design principles. This platform serves as a professional hub for connecting with potential clients and employers, effectively presenting personal branding and technical capabilities.

CERTIFICATIONS AND OTHER ACTIVITIES

- Completed a certification on responsive web design, covering HTML, CSS, Flexbox, Grid for building adaptive, accessible websites.
- Completed an advanced certification in Data Structures and Algorithms, focusing on efficient problem-solving techniques and optimization strategies for complex computational challenges.

SOFT SKILLS

Experienced professional with experience in a IT company, excelling in effective communication, collaboration, problem-solving. Adaptable in dynamic environments, quick learner with meticulous attention to detail. A proficient communicator fluent in English and Hindi. My interests encompass spirituality, religion, music and Bodybuilding.
